COURSE OBJECTIVES: Upon successful course completion, students will be able to:

1. **Explain** the concept of “total quality” within an industrial enterprise.

2. **Compare** the early approaches of quality control to the modern emphasis on total quality management.

3. **Identify** the major changes and demands of the consumer, causing a need for total quality.

4. **Define** a total quality system and explain the interrelationships of the functioning elements.

5. **Explain** the economics of quality, relating the costs of quality with economic survival and growth.

6. **Compare** the changing role of management, organization and quality responsibilities in the total quality system.

ASSESSMENTS: Students’ achievement of course objectives will be assessed based on the following:

<table>

PROGRAM OUTCOMES: Program learning competencies for the AET(M), ARET, & MFET programs:

A. Disciplinary Knowledge

An ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly defined applied engineering activities.
<p>| | | |</p>

<tr>
<td>14. <strong>Design</strong> a process improvement and evaluate the effectiveness of the solution.</td>
<td></td>
<td>x</td>
</tr>
<tr>
<td>15. <strong>Develop and analyze</strong> data through the use of statistical software.</td>
<td></td>
<td>x</td>
</tr>
</tbody>
</table>

**B. Design**
An ability to **design systems, components, or processes** for broadly defined **applied engineering problems** appropriate to program educational objectives.
16. Develop and analyze variable and attribute control charts.  

17. Explain the importance of product reliability in the scope of total quality.  

18. Explain the basic techniques of production sampling in quality.

D. Oral Communication  
An ability to apply oral and graphical communication in both technical and non-technical environments.  

AND  
E. Written Communication  
An ability to apply written communication in both technical and non-technical environments.  

* LA = Lab Experiment/Final Project; EX = Exam.  

CONTENT OUTLINE  
I. Quality and Global Competitiveness  
   A. Relationship between quality and competitiveness  
   B. Competitiveness and the U.S. economy  
   C. Factors inhibiting competitiveness  
   D. Comparisons of international competitors  
   E. Technology and competitiveness  
   F. Global integration  

II. The Total Quality Approach to Quality Management  
   A. Quality and total quality defined  
   B. Key elements of quality  
   C. Total quality pioneers  
   1. Deming  
   2. Juran  
   3. Crosby  
   4. Others  
   D. Why total quality efforts succeed  

III. Strategic Management Planning and Execution  
   A. Strategic management defined  
   B. Components of strategic management  
   C. Strategic planning overview  
   1. Performing a SWOT analysis  
   2. Developing the vision  
   3. Developing the mission  
   4. Developing the guiding principles  
   5. Developing the tactics  

IV. Quality Management and Ethics  
   A. Ethics defined  
   B. Trust and total quality  
   C. Values and total quality  
   D. Integrity and total quality  
   E. Responsibility and total quality  
   F. The manager’s role in ethics  
   G. Organization’s role in ethics  
   H. Handling ethical dilemmas  
   I. Ethics training  
   J. Models for making ethical decisions  

V. Partnering for Competitiveness  
   A. The partnering concept  
   B. Internal partnering  
   C. Partnering with suppliers
D. Partnering with customers
E. Partnering with potential competitors
F. Global partnering

VI. Quality Culture
A. Understanding what a quality culture is
B. Activating a cultural change
C. Changing leaders to activate change
D. Laying the groundwork for a quality culture
E. Learning what a quality culture looks like
F. Countering resistance to cultural change
G. Establishing a quality culture

VII. Customer Satisfaction and Retention
A. Understanding who is a customer
B. Understanding customer-defined quality
C. Identifying external customer needs
D. Identifying internal customer needs
E. Recognizing the customer-driven organization

VIII. Employee Empowerment
A. Employee empowerment defined
B. Rationale for employee empowerment
C. Inhibitors for employee empowerment
D. Management’s role

IX. Leadership and Change
A. Leadership defined
B. Motivation versus inspiration
C. Leadership styles
   1. Autocratic
   2. Democratic
   3. Participative
   4. Goal-oriented
   5. Situational
D. Total quality’s leadership style
E. Leadership versus management
F. Resistance to change
   1. Management
   2. Employees
G. How to lead change

X. Team Building and Teamwork
A. Four-step approach to team building
B. Coaching, not bossing
C. Handling conflict in teams
D. Rewarding team performance

XI. Education and Training
A. Needs assessment
B. Workforce literacy
C. Improving learning
D. Managers as trainers

XII. Overcoming Politics, Negativity and Conflict in the Workplace
A. Internal politics defined
B. Power and politics
C. Organizational structure and politics
D. Impact of internal politics on quality

XIII. ISO 9000 and Total Quality
A. ISO 9000 defined
B. Comparative scope of ISO 9000 and total quality
C. Origin of ISO 9000
D. Management’s motivation for ISO 9000
XIV. Overview of Total Quality Tools
   A. Pareto charts
   B. Cause-and-effect diagrams
   C. Check sheets
   D. Histograms
   E. Scatter diagrams
   F. Run charts and control charts
   G. Stratification
   H. Gantt Charts
   I. Process Flowcharts

XV. Problem Solving and Decision Making
   A. Solving and preventing problems
   B. Utilizing the total quality tools
   C. The decision-making process
   D. Objective versus subjective decision making

XVI. Statistical Process Control
   A. SPC defined
   B. Rationale for SPC
   C. Control chart development
      1. Attribute charts (P, N, NP, U)
      2. Variable charts (X-bar R)
   D. Process capability
   E. Management’s role in SPC
   F. Implementation and deployment of SPC

XVII. Advanced Methods/Tools for Quality Analysis
   A. Analysis of Variance (ANOVA)
   B. Design of Experiments (DOE)
   C. Reliability & Repeatability (Gage R&R)

XVIII. Continuous Improvement
   A. Rationale for continuous improvement
   B. Essential improvement activities
   C. Structure for quality improvement
   D. The scientific approach
   E. The Kaizen approach
   F. Goldratt’s Theory of Constraints

XIX. Benchmarking
   A. Benchmarking defined
   B. Rationale for benchmarking
   C. Benchmarking versus reengineering
   D. Prerequisites for benchmarking
   E. Obstacles for successful benchmarking
   F. Benchmarking resources
   G. Perpetual benchmarking

TEXTS AND REQUIRED MATERIALS

COURSE REQUIREMENTS
Students are expected to participate in or complete the following activities:

1. Complete and submit all required laboratory experiments.
2. Satisfactorily complete all examinations.
3. Participate and contribute equally toward the completion of a final project and presentation.
4. Participate in all assigned clean-up activities at the end of each class session.
5. Regularly attend all lecture and laboratory sessions in their entirety. An attendance record will be maintained by the instructor during both lecture and laboratory segments. The attendance policy adopted by the Department of Applied Engineering, Safety & Technology will be in effect; unauthorized absences exceeding the number
permitted in the departmental policy (3) will result in removal from the course, and a grade of "F" will be assigned. A copy of the departmental policy concerning attendance is included in this syllabus.

**EVALUATION**
Exams (3 @ 15% each) 45%
Labs (3 @ 5% each) 15%
Team Project Presentation Proposal (PowerPoint) 10%
Team/Peer Collaboration/Eval 5%
Team Project Final Paper 25%

*Each student is allowed to use a single page (8.5"x11" front and back) hand-written reference sheet for exam. This sheet must be unique and original to the student – it may not be copied or reduced (size) with a copier or typed. Reference sheets will be inspected by the instructor prior to taking an exam.*

Students that pass the ATMAE Certified Technology Management (CTM) Exam will automatically earn an A in the class.

**Scale:**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Range</th>
<th>Letter</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93 - 100</td>
<td>80 – 82.9</td>
</tr>
<tr>
<td>A-</td>
<td>90 – 92.9</td>
<td>B- 67 – 69.9</td>
</tr>
<tr>
<td>B+</td>
<td>87 – 89.9</td>
<td>C+ 63 – 66.9</td>
</tr>
<tr>
<td>B</td>
<td>83 – 86.9</td>
<td>C 60 – 62.9</td>
</tr>
<tr>
<td>C</td>
<td>below 60</td>
<td>D-</td>
</tr>
<tr>
<td>D</td>
<td>below 60</td>
<td>F</td>
</tr>
</tbody>
</table>

Should the end-of-semester mean score for the class fall below 75%, each student will receive a curve to fit the mean of 75%.

**NOTES**
The instructor reserves the right to alter this syllabus as required.

Late work (less than 1 week) will be subject to a 25% reduction in the student’s earned grade. All work submitted more than 1 week late will not be accepted and will result in a zero for the assignment.

Cell phones, PCs, and any type of data storage device or devices with cameras are not allowed for use on examinations.

**STUDENTS WITH SPECIAL NEEDS**
if you have a disability that requires accommodations under the Americans with Disabilities Act, please present your letter of accommodations and meet with me as soon as possible so that I can support your success in an informed manner. Accommodations cannot be granted retroactively. Title IX Reporting Requirements and the Faculty member: Millersville University is committed to maintaining a safe education environment for all students. In compliance with Title IX of the Education Amendments of 1972 and guidance from the Office for Civil Rights, the University requires faculty members to report incidents of sexual violence shared by students to the University’s Title IX Coordinator. The only exceptions to the faculty member’s reporting obligation are when incidents of sexual violence are communicated by a student during a classroom discussion, in a writing assignment for a class, or as part of a University-approved research project. Faculty members are obligated to report sexual violence or any other abuse of a student who was, or is, a child (under 18 years of age) when the abuse allegedly occurred to the person. Information about Title IX, resources and reporting can be found at: https://www.millersville.edu/titleix/index.php

ATTENDANCE

MILLERSVILLE UNIVERSITY ATTENDANCE POLICY
EFFECTIVE SPRING 2003
Approved by Faculty Senate 12/4/02; Administrative approval 1/10/03

The University supports departmental and faculty class attendance policies that are reflective of and consistent with University approved guidelines. Faculty will include their class attendance policy in their syllabi given to all students in their classes at the start of the semester.

University approved guidelines:
1. **Students are expected to attend all classes.** It is the student’s responsibility to complete all course requirements even if a class is missed. If a student misses class for an officially excused reason, then he/she is entitled to make up the missed work but only at the convenience of the faculty member. Responsibility for materials presented in, assignments made for, and tests/quizzes given in regularly scheduled classes lies solely with the student.

2. **The University policy is that faculty will excuse absences for the following reasons:**
   a. personal illness,
   b. death or critical illness in the family,
   c. participation in a university-sponsored activity,
   d. jury duty,
   e. military duties, or
   f. religious holidays

3. **Faculty judge the validity of student absences from class within the University’s approved guidelines and may require documentation for excused absences.** Faculty will evaluate any reason, other than those listed above, for a student missing class and determine whether the absence is justified. In these circumstances, a student may make up missed work at the discretion of the instructor.

4. **In the case of foreseeable absences, students are encouraged to notify the faculty member in advance.** A student who will miss class due to participation in an official University activity must notify the instructor well in advance of the activity to assure that the absence is excused.

Appeals:
As with any academic issue, students may exercise their right to appeal adverse attendance decisions. Please refer to the current undergraduate catalog for the complete Academic Appeal procedure.

-------------------------------------------------------------------------------------------------------------------
DEPARTMENT OF APPLIED ENGINEERING, SAFETY & TECHNOLOGY ATTENDANCE POLICY
Adopted May 4, 1998

Students are expected to attend all scheduled classes in accordance with the above policy. To the extent that this does not happen, the following shall apply:

1. The limit of unauthorized absences depends upon the number of scheduled days per week as follows:
   - Fall and spring semesters
     - three per semester for a course scheduled three days per week
     - two per semester for a course scheduled one or two days per week
   - Winter and summer sessions
     - two per session

2. Each late arrival and early departure will count as one-half of an unauthorized absence.

3. Participation in outside-of-the-classroom educational activities and intercollegiate contests shall be communicated to the instructor prior to the absence. Failure to do so will convert these authorized absences to "unauthorized absences."

4. Students whose "unauthorized" absences exceed the policy stated in item #1 are liable to dismissal from the course with a grade of 'F' or 'Z.'

BIBLIOGRAPHY
